# Web Designer (WordPress & Shopify)

MEGAWEBVISION | Remote

# About Megawebvision

Megawebvision is a growth marketing agency that helps businesses dominate their markets through SEO, paid media, CRO, and full-funnel digital strategy. We don't just build websites — we build **growth engines**.

We're looking for a Web Designer (WordPress & Shopify) who knows how to create fast, clean, and high-performing sites that convert. You'll work across multiple industries, collaborating with our growth and paid teams to deliver sites that look incredible and drive results.

# Role Overview

You'll be responsible for the **full web design lifecycle** — from structure and UX planning to build, launch, and optimization. You'll create responsive, SEO-friendly designs and manage both WordPress and Shopify environments while ensuring flawless functionality.

# Key Responsibilities

### Design & Build

Design and build websites on WordPress and Shopify using proven templates and custom layouts.

### User Experience

Ensure seamless UX/UI across devices and browsers.

### Optimization

Optimize websites for conversions, SEO, and performance.

### Technical Management

Manage hosting, domain setup, SSLs, and integrations (Google Analytics, Tag Manager, etc.).

### Collaboration

Collaborate with the SEO, paid ads, and CRO teams to align design with strategy.

### Maintenance

Maintain, troubleshoot, and update existing client websites.

### Implementation

Implement tracking, popups, and funnel structures where needed.

# Requirements

## Essential Skills

- 2+ years of professional experience with WordPress and Shopify.
- Solid understanding of UX/UI principles and conversion-oriented design.
- Experience managing hosting and domain environments.
- Familiarity with tools like Canva, Figma, and Google Analytics.
- Eye for detail and ability to manage multiple sites and timelines.

## What Sets You Apart

**These qualifications will make you stand out:**

- Knowledge of CRO and page speed optimization.
- Understanding of SEO best practices.
- Basic HTML/CSS and plugin management experience.

# Preferred Qualifications

**CRO Expertise**

Knowledge of CRO and page speed optimization.

**SEO Knowledge**

Understanding of SEO best practices.

**Technical Skills**

Basic HTML/CSS and plugin management experience.
